

Advanced: Complexities of CSE in Practice: Level 3

Our team of frontline specialist Child Sexual Exploitation (CSE) practitioners have developed this one day CPD accredited course to share experience, techniques and resources they find particularly effective, developed over years of working with victims of CSE. This training offers practitioners a structured, interactive space in which to explore how to practically apply knowledge learned in our Level 2 CSE Victim's Voice course. It is a highly participatory course, focused on directly supporting practitioners to explore challenges and effective, trauma-informed responses, including in their own cases, in a safe, constructive environment. As with all our training, victims' experiences are used throughout the course in the form of case studies, quotes and co-produced resources.

Who is this course aimed at?

Attendees should have a solid understanding of CSE, risk factors and vulnerabilities. Ideally they should have a direct working relationship with young people at significant risk of CSE (or supervising a practitioner with similar responsibilities). This can include: *social workers, pastoral care staff, residential care staff, police, MST, health care professionals, youth offending workers.*

What this course covers:

- Understanding and exploring effective engagement for “denial/resistance”
- Working with groups with additional vulnerabilities and/or those “harder to engage”
- Understanding the relationship between trauma, vulnerability to and responses to CSE
- Exploring effective problem-solving techniques including motivational interviewing techniques
- Understanding how victims may also become recruiters/perpetrators
- Understanding and responding to disclosures and complexities around disclosure
- Exploring vicarious trauma and the impact of working in CSE on professionals
- Exploring responses to specific challenges from their cases
- Tips and feedback to workers from young people

This course is offered as an Open Course or can be bespoke to your organisation.

Time: 9:30 – 4:30 (full day)

‘I have taken part in lots of training in regards to CSE. However, this was the most relevant and helpful.’ Leeds City Council .

‘The knowledge, expertise and passion within the Basis project was evident throughout’. Open Course Attendee
